

<p>Sec. 6777 47 U.S.C. Sec. 254</p>	<p>sound or written depiction that:</p> <ol style="list-style-type: none"> 1. Taken as a whole, and with respect to minors, appeals to an inappropriate interest in nudity, sex or excretion. 2. Depicts, describes or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated, normal or perverted sexual acts or a lewd exhibition of the genitals. 3. Lacks serious literary, artistic, political or scientific value as to minors; depicts extreme violence; promotes intolerance. <p>Illegal activities/uses - any use of network facilities which violates a municipal ordinance, or local, state, or federal law, including those activities relating to intellectual property rights, trade secrets, the distribution of obscene or pornographic materials or the Family Educational Rights and Privacy Act.</p> <p>Information technology - any electronic device, computer hardware and software, operating systems, web-based information and applications, telephones and other telecommunications products, video equipment and multimedia products, information kiosks and office products such as photocopiers and fax machines.</p> <p>Minor - for purposes of compliance with the Children’s Internet Protection Act (CIPA), an individual who has not yet attained the age of seventeen (17). For other purposes, minor shall mean the age of minority as defined in the relevant law.</p> <p>Network facilities -</p> <ol style="list-style-type: none"> 1. District owned computer hardware and software, electronic connections, electronic devices and other information technology tools used for information processing, as well as peripheral devices connected to these tools. 2. Network bandwidth provided by the district including Internet bandwidth and other devices necessary to facilitate network connectivity such as e-mail services, file servers, routers, switches, hubs, firewalls, premise wiring, network data ports, etc. 3. District owned computers hardware and software, electronic connections, electronic devices and other information technology tools used on district property or used off district property that impacts the district or causes a disruption to the educational environment, or when such use comes in
---	--

<p>3. Authority</p>	<p>conflict with the Student Code of Conduct or district policy.</p> <p>4. Computers, electronic connections, electronic devices and other information technology tools while they are connected remotely (from home or elsewhere) to the district's network.</p> <p>Online collaboration - using site-based or web-based technology tools to communicate and work productively with other users to complete educationally relevant tasks.</p> <p>Staff - includes administrative, teaching, support and volunteer personnel employed by or voluntarily affiliated with the South Western School District.</p> <p>Technology tools - includes any district-owned, leased or licensed or user-owned electronic devices, software or other technology used on district premises or at district events, or connected to the district network, containing school district programs or district or student data (including images, files and other information) attached or connected to, installed in or otherwise used in connection with a computer. Technology equipment includes, but is not limited to, district and users': desktop, notebook, powerbook, tablet PC or laptop computers, servers, firewalls/security systems, distance learning equipment, videoconference units, printers, facsimile machine, cables, modems, and other peripherals, specialized electronic equipment used for students' special educational purposes, Global Positioning System (GPS) equipment, personal digital assistants (PDAs), iPods, MP3 players, USB/jump drives, cell phones, with or without Internet access and/or recording and/or camera/video and other capabilities and configurations, telephones, mobile phones, or wireless devices, two-way radios/telephones, beepers, paging devices, laser pointers and attachments and any other such technology developed.</p> <p>Telecommunications - any system that allows users access to a wide variety of information from electronic networks found on local, state, national and international databases, Internet or intranet servers and other information technology tools. Examples include, but are not limited to, Internet technologies, e-mail, Internet-based discussion groups and bulletin boards.</p> <p>The Board of Directors (Board) establishes that use of information technology tools and network facilities impacting the district is a privilege, not a right. Inappropriate, unauthorized and illegal use may result in cancellation of the privileges of users and appropriate disciplinary action consistent with the district's disciplinary code.</p>
---------------------	---

<p>4. Delegation of Responsibility</p>	<p>The information available to students and staff does not imply endorsement by the district of the content, nor does the district guarantee the accuracy of information received.</p> <p>All network and computing resources must meet requirements for established policies, procedures and conditions of the South Western School District and any external entity administrating resources to which the network or computing resources are connected.</p> <p>The district’s Director of Technology, or other authorized school employees, may at any time review the subject, content and appropriateness of electronic communications, Internet access, usage of the district’s information technology or other electronic files and remove them or block the inappropriate use as warranted, or report any violation of these rules to the district’s administration or appropriate law enforcement officials. The district reserves the right to remove a user account from its network facilities to prevent further unauthorized or illegal activity if this activity is discovered.</p> <p>The hardware, software, messages transmitted and electronic files created on it are the property of the district.</p> <p>Users have no expectation of privacy or confidentiality in the content of electronic communications, Internet access or other electronic files sent and received utilizing the district’s information technology tools, network facilities or stored in his/her directory. The South Western School District reserves the right to monitor, inspect, copy, review and store at any time, without prior notice, any and all usage of its information technology, network facilities and Internet usage and any and all information transmitted or received in connection with such usage. All such information files and user accounts shall be and remain property of the district.</p> <p>The district shall make every effort to ensure that district resources are used responsibly by students and staff. Students and staff have the responsibility to respect and protect the rights of every other user in the district and on the Internet.</p> <p>All staff have a professional responsibility to work together to help students develop the intellectual skills necessary to discriminate among information sources, to identify information appropriate to their age and developmental levels, to evaluate and use the information to meet their educational goals and practice proper etiquette and ethical use of district resources.</p>
--	---

<p>20 U.S.C. Sec. 6777 47 U.S.C. Sec. 254</p> <p>5. Guidelines</p>	<p>The district shall not be responsible for any information lost, damaged or unavailable when using the network or for any information that is retrieved via the Internet. The district is not responsible for any unauthorized charges or fees resulting from access to the Internet.</p> <p>The Board of Directors for the South Western School District endorses the use of technology as an integral part of the district's instructional program. The Superintendent shall be responsible for the development of educational programs using technology and global networks and shall establish procedures for the development of such programs.</p> <p>The Superintendent or designee shall be responsible for developing procedures used to determine whether the district's technology tools and network facilities are being used for purposes prohibited by law or for accessing sexually explicit materials. The procedures shall include but not be limited to:</p> <ol style="list-style-type: none"> 1. Utilizing a technology protection measure that blocks or filters Internet access for minors or adults to certain visual depictions that are obscene, child pornography, harmful to minors with respect to use by minors, or determined inappropriate for use by minors by the Board. 2. Maintaining and securing a usage log. 3. Monitoring online activities of all users. <p>Unless otherwise denied for cause, student access to onsite district resources shall be through supervision by the district staff. All users have the responsibility to respect the rights of all other users within the district and district's technology resources and to abide by the rules established by the district, its ISP and local, state and federal laws.</p> <p>Network accounts will be used only by the authorized owner of the account for its approved purpose. These accounts will be made available according to a procedure developed by appropriate district authorities. All communications and information accessible via the network should be assumed to be the property of the district and shall not be disclosed. Network users shall respect the privacy of other users on the system.</p> <p>The incidental personal use of network facilities or electronic devices is permitted for employees so long as such use does not interfere with the employee's job duties and performance, with system operations or with other system users. Personal use must comply with this policy and all other applicable district's procedures and rules contained in this policy, as well as ISP terms, local, state and federal laws; and must not damage the district's information technology tools, network facilities and Internet access systems</p>

<p>Pol 815.4</p>	<ol style="list-style-type: none">10. Loading or use of unauthorized games, programs, files or other electronic media.11. Use of district information technology tools, network facilities, or electronic devices to disrupt the work of others or network operations; intentionally disrupt information network traffic or crash the network and connected systems; and the hardware or software of other users shall not be destroyed, modified or abused in any way.12. Use of network facilities or electronic devices which results in any copyright violation or other contracts violating such matters as institutional or third party copyright, license agreements and other contracts.13. Posting of anonymous messages, possessing any data which might be considered a violation of these rules in paper, electronic or any other form or using inappropriate language or profanity.14. Revealing personal information or passwords related to any users on the network other than by district staff in the performance of assigned duties.15. Use of any social networking or communication medium, on or off-campus, that causes a disruption to the educational process (e.g. posting inflammatory comments about another student or staff member).16. Connecting non-district owned electronic devices directly to the wired network. <p><u>Security</u></p> <p>To the greatest extent possible, users of the district's network will be protected from harassment and unwanted or unsolicited communication. The security of network facilities is protected through the use of passwords. Failure to adequately protect or update passwords could result in unauthorized access to personal or district files. To protect the integrity of network facilities and the safety of users, the following guidelines shall be followed:</p> <ol style="list-style-type: none">1. Users shall not reveal their passwords to another individual or use any other user's password. If a user suspects someone else has his/her password, the password shall be changed immediately by district personnel.2. Users are responsible to log off a computer or secure the computer when it is not in use and are not permitted to use a computer that has been logged in under another user's name.
------------------	--

<p>20 U.S.C. Sec. 6777 47 U.S.C. Sec. 254</p> <p>47 U.S.C. Sec. 254</p>	<ol style="list-style-type: none"> 3. Any user identified as a security risk or having a history of problems with other electronic resources may be denied access to the network. 4. Any network user who receives threatening or unwelcome communications or an invitation from Internet contacts to an inappropriate face-to-face meeting shall immediately report the incident to a teacher or administrator. 5. Student users shall not reveal personal information to other users, including through e-mail, Internet, etc. that could identify themselves or other users or allow a person to locate a user. 6. Users shall not intentionally seek information on, obtain copies of or modify files, other data or passwords belonging to other users. 7. Users shall not transfer or download confidential data or data that contains sensitive personally identifiable information via any portable storage devices. <p><u>Filtering</u></p> <p>Any district computer/server utilized by students and staff shall be equipped with Internet blocking/filtering software. The district will also monitor online activities of users through direct observation or technological means to ensure adherence to this policy. Internet filtering software or other technology based protection systems may be disabled by the Director of Technology or his/her designee, as necessary, for purposes of valid research or other educational projects being conducted by users, as determined and approved by a building administrator.</p> <p>Internet safety measures shall effectively address the following:</p> <ol style="list-style-type: none"> 1. Control of access by minors to inappropriate matter on the Internet and World Wide Web. 2. Safety and security when using electronic communications and other forms of direct electronic communications. 3. Prevention of unauthorized online access, including "hacking" and other unlawful activities. 4. Unauthorized disclosure, use, and dissemination of personal information.
---	--

5. Restriction of access deemed by the district to be harmful to minors.
6. Restriction of access to visual depictions that are obscene, child pornography or harmful to minors.

Disclaimer Of Warranties/Indemnification

The district makes no warranties of any kind, either express or implied, in connection with this policy, access to and use of its information technology, or network facilities. The district shall not be responsible for any claims, losses, damages or costs (including fees) of any kind suffered, directly or indirectly, by any user of his/her parents(s)/guardian(s) arising out of the use of its information technology or network facilities under this policy. Further, the district is not responsible for damage that may occur as a result of an individual user attempting to connect a personal technology device to any district-owned device.

By signing this policy, the user is taking full responsibility for his/her use, and the user who is eighteen (18) or older, or, in the case of a user under eighteen (18), the parents(s)/guardian(s) are agreeing to indemnify and hold the district administrators, professional employees and staff harmless from any and all losses, cost claims or damages resulting from the user's access to its network facilities, including, but not limited to, any fees or charges incurred through purchases of goods or services by the user. The user, or if the user is a minor, the user's parent(s)/guardian(s) agree to cooperate with the district in the event of the district's initiating an investigation of a user's access to the computer network and the Internet.

Actions Resulting From Misuse

Deliberate and/or negligent abuse of the network, computing resource or any other district resource could lead to disciplinary action. Any such action would be subject to applicable procedures established by the district. The network user, whether student or employee, may be responsible for restitutions for damages to the equipment, systems or software resulting from negligent, deliberate or willful acts.

Consequences of violations include but are not limited to:

1. Suspension of information network access; revocation of information network access; suspension of network privileges; revocation of network privileges; suspension of computer access; revocation of computer access.
2. Employment dismissal; school suspension; school expulsion.
3. Legal action and prosecution by the authorities.

Procedure For Handling Complaints

No duly selected materials whose appropriateness is challenged shall be removed from the school except upon the recommendation of a review committee, as provided for below, with the concurrence of the Superintendent.

The following procedures are to be observed:

1. All complaints to staff members shall be reported to the building principal, whether received by telephone, letter or in personal conversation.
2. The principal shall contact the complainant to discuss the complaint and attempt to resolve it informally by explaining the philosophy and goals of the school district and/or the library media center.
3. If the complaint is not resolved informally, the complainant shall be supplied with South Western School District's network policy statement, the procedure for handling objections and a complaint form. The complaint form must be completed and returned before consideration will be given to the complaint.
4. When the request is returned, the reasons for selection of the specific information shall be re-established by the appropriate staff.
5. In accordance with statement of philosophy, no questioned materials shall be removed from the school pending a final decision. Pending the outcome of the request for consideration, however, access to questionable materials can be denied to the child (or children) of the parents/guardians making the complaint, if they so desire.
6. Upon receipt of a completed objection form, the principal in the building involved will call together a committee to consider the complaint. This committee may consist of the principal, the technology coach, a teacher, the department chair, a member of the community and a librarian.
7. The committee shall meet to discuss the material, following the guidelines set forth in the network policy, and shall prepare a report on the material containing their recommendations on disposition of the matter.

8. The principal shall notify the complainant of the decision and send a formal report and recommendation to the Superintendent. If the committee decides to keep the work that caused the complaint, the complainant shall be given an explanation. If the complaint is valid, the principal will acknowledge it and make recommended changes.
9. If the complainant is still not satisfied, s/he may appeal to the Superintendent who shall make a final determination of the issue. The Superintendent may seek assistance from outside organizations, such as the American Library Association, the Association for Supervision and Curriculum Development, etc., in making his/her determination.
