

More Information about the “Online Forms” Waiver in Student Handbook

The term “online accounts” on the waiver form of the student handbook does not refer to:

- Student computer account (Novell Network account) used to access the internet, G drive, Shareable drive, or printers
- Student Community Portal (k12 Sapphire) Accounts used for scheduling or grade monitoring
- Read 180, Compass Learning, Fast Forward, OdysseyWare, or Successmaker
- Fitness Gram
- Online Textbook Student Accounts
- Discovery Streaming

The term “online accounts” does include, but is not limited to, the following list of resources:

- SW Wikispaces
- SW Google Apps (including student SW gMail email account)
- SW Moodle
- SW Wordpress
- Web 2.0 Tools such as: Animoto, Glogster, Diigo, Edmodo, Keystone Commons, etc.

What happens when a parent denies permission on the “online account” waiver form?

Building Level Administration will designate a staff member to:

- 1) Collects all online account waiver forms from homeroom teachers and compiles a list of students who do not have permission. This list will be emailed by the end of September and then posted on the teachershare drive in the “student accounts” folder along with student log ins.
- 2) SWSD Tech Department will disable SWSD online accounts created by the district that we no longer have permission to use

Teachers may:

- 1) Create a few “generic” accounts that can be used by students for essential classroom activities.
- 2) Contact parents and explain how they use online accounts and see if you can get permission from them after talking with them.
